

On Monday, 22 May 2023 the College hosted DHET officials at the Hillside View Campus, for a one day teaching and learning plan oversight and monitoring meeting.

The purpose of their visit was to see how the College is doing in terms of implementing teaching and learning plans on robotics and coding.

Mr D Modiba and Ms P Morule engaged with Campus Management, Lecturers and SRC members.

The College has so far registered 20 students studying robotics.

With application softwares that are relevant for teaching and learning purposes installed such Scratch, Python, AST and ASK Archie.

The meeting ended with a campus walkabout to the robotics lab, spray booth workshop and CNC machines.
